

Plastic the Environment and Us 18/3

Bijgedragen door Alec Boswijk
maandag 18 maart 2013
Laatst geupdate op maandag 18 maart 2013

Date: Monday 18 of March 2013

Activity: lecture/debate with Heather Leslie (ecotoxicologist)

We are glad to have Heather Leslie as our lecturing guest. Heather Leslie is a senior researcher at the Institute for Environmental Studies at the VU in Amsterdam, she is specialized in ecotoxicology.

Heather is going to share with us her scientific knowledge concerning the challenges plastics represent for us humans and the possible solutions that await us. Although she will present us with the global aspects of plastic, the evening approach will be directed to the personal / individual possibilities. What to do? will be the key issue of the evening.

If enough people signs up via e-mail or facebook then I'll await you with a warm soup.

Greetings from Abraham & team.

Doors open at: 19.00, event starts at 20.00

Location: "Alchemist Garden"

Address: Overtoom 409, Amsterdam. Tel: 020 - 334 33 35
